

BIG GAME SQUARES FUNDRAISER

HOW TO PLAY:

Each square in the Big Game squares grid represents a possible combination of the last digits of both teams' scores at the end of each quarter.

Players buy or claim squares until the grid is full. We recommend a \$10 donation to The Defensive Line and \$10 into the prize pot for each square purchased! Write each player's name in their chosen square(s).

Once all squares are filled, randomly assign numbers 0-9 to the columns (top team) and 0-9 to the rows (side team).

At the end of each quarter, check the last digit of each team's score. Find the square where those numbers intersect— whoever owns that square wins! Repeat this for Q1, Halftime, Q3, and Final Score (each can have its own prize).
